

Startup Dataset Analysis Dashboard

Overview

Comparative analysis of two startup data sources covering 97,193+ companies and \$300B+ in disclosed funding — built to evaluate which provider best fits lead-generation and market-mapping use cases.

Key Findings

- GrowthList covers the largest volume: 76,333 startups.
- VCBacked: live-updated recent funding rounds and stage detail.
- GrowthList is the only source with verified emails, social profiles, and CSV export.
- Source-selection KPIs prioritised over raw startup metrics.

Business Value

Guides procurement decisions on third-party data — clear ROI on which source to subscribe to.
